Student's names:			F	M	**Class:** FORM FOUR		
SEQ N° 1	**Assessment of module N°:** 1	**Date:**		**Discipline:** Geography		**Duration:** 1 hour	
Evaluated competence: Learners are able to explain the characteristics of biomes and to manage soils sustainably.							
Student performance:			**Remarks**				
Mark/20:	**Grade:**		CVWA	CWA	CA	CAA	CNA
Seal of the school *HARDWORK – DILIGENCE – SUCCESS*	Signature, name and comments of the teacher:		Signature and name of parent/guardian:				

FIRST SEQUENCE EVALUATION – SCHOOL YEAR 2026-2027
GEOGRAPHY DEPARTMENT

INSTRUCTIONS TO CANDIDATES

This paper has two sections, A and B. Answer ALL the questions in each section.
The marks are given in brackets at the end of each question.

SECTION A: VERIFICATION OF RESOURCES

i) Verification of Knowledge: Multiple Choice Questions (10 × 0.5 = 5 marks)

Draw a dark line across the letter of the correct answer. Example: if B is the correct answer, draw a dark line across B.

1. Soil is formed by physical, chemical and biological processes and is mainly composed of:
A. Rocks and metals only
B. Mineral particles, organic matter, water and air
C. Sand and cement
D. Plastic and glass

2. Soil erosion that is caused mainly by human activities and occurs at a very fast rate is called:
A. Normal geologic erosion
B. Accelerated soil erosion
C. Natural erosion
D. Wind erosion only

3. Which soil conservation method involves cutting a slope into a series of flat steps for cultivation?
A. Contour ploughing
B. Terracing
C. Strip cultivation
D. Planting of windbreaks

6. On average, what percentage of energy is transferred from one trophic level to the next?
A. 100 %
B. 50 %
C. 10 %
D. 90 %

7. Which ONE of the following is a depositional feature produced in hot deserts?
A. Inselbergs
B. Barchans
C. Rock pedestals
D. Yardangs

8. Identify a strategy that can be used to solve the problem of water scarcity in hot desert areas:
A. Construction of water reservoirs
B. Wearing long sleeves to prevent sunburn
C. Planting crops far from any source of water
D. Exploiting petroleum and natural gas from the soil

4. An ecosystem is best described as:

A. A group of only plants in an area
B. A natural area where living and non-living components interact
C. A man-made structure
D. A single organism

5. Organisms that manufacture their own food by converting solar energy into carbohydrates are called:

A. Herbivores
B. Producers (autotrophs)
C. Decomposers
D. Carnivores

9. The following are relief units of Cameroon EXCEPT:

A. Northern Lowlands
B. Western Highlands
C. Atlas Mountains
D. Coastal Lowlands

10. Cameroon is located between latitudes:

A. 5° N and 9° N
B. 2° N and 8° N
C. 2° N and 13° N
D. 0° N and 5° N

ii) Verification of Skills: Structural Type Question (8 marks)

Study **Table 1** below, which shows the climate data of a station X in Africa.

Month	**J**	**F**	**M**	**A**	**M**	**J**	**J**	**A**	**S**	**O**	**N**	**D**
Temperature (°C)	27	30	33	33	30	27	26	26	26	27	28	27
Rainfall (mm)	0	0	3	26	115	150	178	220	190	55	2	0

Table 1: Climate data of station X

(a) (i) Calculate the annual range of temperature of station X. **(3 marks)**

.....

.....

.....

(ii) Name the wettest month. **(2 marks)**

.....

(b) Name the biome in which station X is located, and give **two** reasons for your answer. **(3 marks)**

.....

.....

.....

SECTION B: VERIFICATION OF COMPETENCE (5 marks)

Study the passage and answer the questions that follow.

Situation:

Mrs Nkwetecha is a poor widow who recently became a farmer after the loss of her husband. She noticed that, after two years of cultivation, her crop yields dropped, and her farm on a hill slope has lost a lot of soil carried away by wind and torrential rain.

Task 1: What is the problem described in the passage that is faced by Mrs Nkwetecha?

.....

.....

Task 2: State **two** causes of the problem identified in Task 1 above.

.....

.....

Task 3: As a geographer, suggest **two** measures that can be used by Mrs Nkwetecha and other farmers to solve the problem identified in Task 1 above.

.....

.....

Presentation: 2 marks

FACILITATORS: Mr KAMDEM Emmanuel – Mr TABIT B. Ajong
